

THE WORLD'S GREATEST WINNING STRAIN OF RACING PIGEONS. *The Gurnay Strain.*

First introduced and solely imported through

Mr. FRED SHAW, The Grange, Hyde, Cheshire,

who is a personal friend of

MONSIEUR RENIER GURNAY, OF VERVIERS,

described by the Belgian journals as

"THE CHAMPION OF THE PIGEON WORLD."
and publicly proclaimed by Mons. Georges Gits as **"THE EMPEROR."**

The Great Wins of
Mons. Gurnay easily
exceed anything ever
previously achieved in
the Pigeon World.

The last **four seasons**,
with an Average Team
of **21 Racers**, wins
exceed

£22,000.

1922 Season, 25 Racers,

£9,400.

Monsieur RENIER GURNAY, of Verviers, Belgium, founder of The Gurnays.

"Little Blue Cock,"

"Bariola," and

"Bronze Favourite."

Each of these 3 birds
won for Mons. Gurnay,
1st Grand National,
each by over $\frac{1}{2}$ hour
advance.

Example of National Racing:—8 days, **£4,000** with **6 Pigeons**: Angouleme Grand National, (1,643 competing), 1st, 12th, 38th, 4 pigeons engaged; Vierzón National (351 competing), 1st and 2nd, 2 pigeons engaged. Many fanciers consider the Gurnays not only the Greatest Racing Strain the World has ever known but also the most beautiful. Example:—Liege Province Exhibition, Mons. Gurnay exhibited his best racers, 1st, 2nd, and 3rd Championship (816 competitors); 1st and 2nd (312 competitors).

"GURNAYS" are a combination of STRENGTH, COURAGE, SPEED and BEAUTY with INTELLIGENCE.

[Par of Exchange in calculating Francs to Sterling.]

MR. FRED SHAW, The Grange, Hyde, Cheshire, In offering **SQUEAKERS** from the **MONS. GURNAY**, has still the Original object in view, to make the Gurnays the Greatest Strain of Racing Pigeons ever imported into any Country, consequently no pair or squeakers are reserved.

What A. P. TAFT, Esq., said in "R.P." January 3th, 1923 :—

"I have been flying pigeons over 50 years and I believe have tried every known strain and bred and handled as many birds as any fancier in England. For beauty and intelligence I have seen nothing to equal the Gurnays, and the work they have done in England and Belgium proves they have strength, courage and speed beyond any other strain."

What "NOR'-WEST" said in "R.P.", 1922 :—
Mr. FRED SHAW'S MAGNIFICENT STUD OF GURNAYS.

"Facts talk! They are hard things to run up against, and even the most sceptical or prejudiced fancier must give way to them. There are sufficient thrilling facts about the Gurnay strain of racing pigeon to make the average fancier's hair curl. With a small loft of about 20 racers (cocks), three years' winnings of Mons. Gurnay exceed £13,000. Fifteen cocks in one season won £5,000. Six pigeons won £4,000 in eight days. On three occasions Mons.

Gurnay won 1st Grand National by 30 to 40 minutes in advance. I am not so much concerned with Mons. Gurnay's own big wins as I am with what the Gurnay strain has done in this country. Mr. Fred Shaw, of The Grange, Hyde, is such an old and intimate friend of Mons. Gurnay that he has had the run of the lofts and been able to get from him almost anything in reason. Consequently the Grange Lofts at Hyde are stocked with many of the best of the Gurnay strain. I remember Mr. Fred Shaw telling me he was out to make the Gurnays do as good work in England as they had done in Belgium, but I was doubtful about that, as he had no birds of any age or experience for such a task. The Gurnays were raced as youngsters in England in 1920, and won about £60. It was in 1921, however, that Mr. Fred Shaw made his Gurnays 'talk' and set the English Fancy buzzing. Thirteen pairs of yearlings (trained as youngsters) and twelve late bred 1920 cocks were put on the road, and they won in downright hot competition over £310, being second highest prize winner in Manchester Flying Club with £198. They won ten firsts in eleven successive races. Two outstanding wins were 1st, 2nd, 3rd and 4th over all sections in the Manchester F.C. Guernsey old bird race, 1,000 birds competing, a most amazing win. Quickly followed 1st Granville, Stockport, and Dis. Federation, 1,380 birds competing, also 20th. After being hard flown all the season four yearling Gurnay hens were sent to Marennes and three homed, 529 miles. If any man will not hold his hands up to the good work in 1921 of these Gurnay yearlings then indeed must he be prejudiced. An average of nine birds per race sums up Mr. Shaw's 1921 performances, so that he did not do his good work by mob flying. The list of wins as set out in to-day's advt. is an amazing one and a fine tribute to the capabilities of the Gurnays now in this country. What manner or class of pigeon are these Gurnays? Some of the best and cleverest racing pigeon fanciers

in England have visited 'The Grange' prepared to criticise, but they have one and all fallen victims to the charms of these birds. Real lovers of a racing pigeon are always welcomed at The Grange, and whoever cares to go will get the sight of a lifetime. First, the birds are racy, with a true racer's outline; they are hard in colour, a black cheq. is intense black, the blues are splendid, with brilliant black bars; the blue chequers are evenly chequered. These Gurnays have beauty with intelligence stamped on them. They have strength and courage for almost any task, and are very determined racers. Such fanciers as Messrs. Clark, Woodcock, Stow Bros., Gordon Clarke, and many others have all fallen victims to the Gurnay charm, and are simply 'mad on' them. Gordon Clarke was so enamoured of one bird that he could not rest. Three separate times he asked for the bird to be brought in again so that he could 'have another feel at it.' They are indeed as handsome as paintings and as good as they look, for they are bred out of winning stock which M. Gurnay has raced and won so handsomely with in many of the biggest races in Belgium. I handled many of the birds quite recently and so pleasing are they in the hand that I do not wonder at Gordon Clarke wanting to handle his fancy again and again. I have some in my own 'mind's eye' that I will carry with me for many a long day. Beautiful lofts and huge aviaries set the birds off to perfection. Visitors will never forget the sight, for it is indeed a charming one to see the stock birds first and then the racing teams. The Gurnay strain and its splendid performances in this country in such a short time are the talk of fanciers all over. I wonder what these fanciers would think and say if they could just get a look at the Gurnays at 'The Grange.' I am, in my professional capacity, used to seeing fine lofts of birds, but Mr. Fred Shaw's team 'got me' all right. So many of the birds all have the same class of eye that they can be labelled as one family almost at a glance."
